

Custom Smart Work Zone Systems and Design Consultation

With over 20 years of experience in the field, Qlynx Technologies are your experts in intelligent transportation systems (ITS) and smart work zone technology.

Qlynx can provide any smart work zone system you are looking for. Plus, our skilled design team is available to provide expert design consultation and recommendations, as needed.

Qlynx is here to help you create a smarter, safer work zone. Our award-winning systems have been installed throughout the United States.

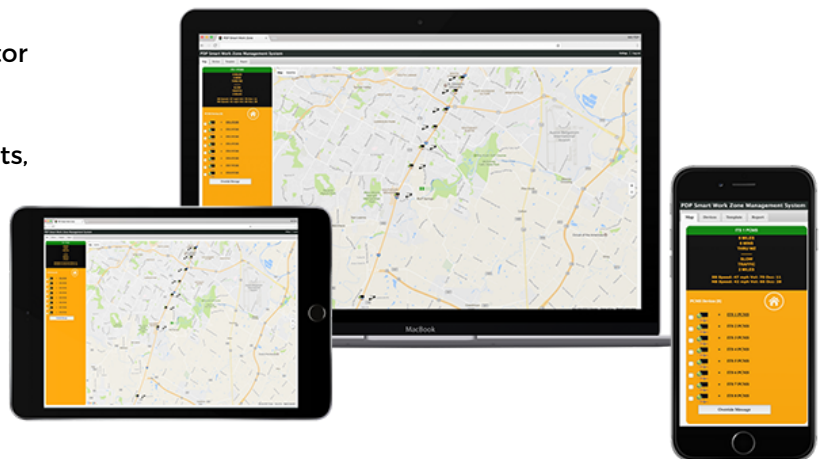

You will love TrafficLynx, our easy-to-use, cloud-based ITS software, that makes it simple to monitor your projects.

And we can't wait to introduce you to our products, like the Qlynx Nano sensor, the most advanced and easy-to-use ITS sensor on the market.

Qlynx can help launch your project at any phase. Our expert team will make sure your system fits your specific project needs. We are skilled with design-build and early-stage projects, as well as fully specified systems. And if your project is up-and-running and is having traffic accidents, we can step in fast to provide solutions.

Popular Smart Work Zone Systems

- Queue Warning
- Travel Time
- Construction Vehicle Entering Roadway
- Dynamic Lane Merge (DLMS)
- CCTV Camera Monitoring
- Flashing Beacon Slow Traffic Warnings

TrafficLynx, our easy-to-use, web-based ITS platform.
